

Treaty Amendments Selfish, Immoral, Dishonorable—McCumber.

REPORT SCORES LODGE MOTIVES.

North Dakota Senator Denounces Jingoistic Spirit.

Says it Should be Eliminated from Statesmanship.

Asserts Adoption Would Eliminate America.

WASHINGTON, Sept. 15.—Rejection of all proposed amendments to the German peace treaty and modification of the recommended "strong" reservations were urged in an individual minority report filed with the Senate today by Senator McCumber, Republican, of North Dakota, next in rank on the Foreign Relations Committee to Chairman Lodge.

Attacking the majority report, Senator McCumber denounced most of the amendments as "selfish, immoral and dishonorable," and charged that they seek to "isolate the United States and abandon our allies."

"To the substance of some of the proposed amendments," Senator McCumber's report declared, "there can be no serious objection. But against the manner in which they are asserted, I do most earnestly protest. They are couched in a defiant, discourteous and overbearing manner and seem intended to express a jingoistic spirit that ought to be eliminated from American statesmanship."

Scoring the committee reservations to Article X of the League of Nations covenant, Senator McCumber said it really is an amendment "pure and simple" and designed to make the United States entirely out of the league.

He expressed opposition to the proposed amendment to the Shantung provision. By this amendment, he said, Japan would be "kicked out" of the league by the United States and Shantung possibly to China.

Calling attention to what he termed the failure of the majority to explain the purposes of the league, Senator McCumber said: "Not one word is said concerning either the great purpose of the League of Nations or the methods by which those purposes are to be accomplished. Irony and sarcasm have been substituted for argument. It is regrettable that the consideration of a matter so foreign to partisanship should be influenced by hostility towards or subservience to the President."

Sensor McCumber said that the amendment to give the United States equal votes in the league with England and the British colonies was "unreasonable."

CHARGES "UNNECESSARY." The plan of giving each member nation one vote without regard to size or importance was the only possible plan, he said, and adding that to all intents and purposes the British colonies are independent.

Sensor McCumber said his only objections to the Lodge reservation

FRESNO SHORT ON HOUSES AND BEDS.

FRESNO, Sept. 15.—Fresno today faces the greatest house shortage in the history of the city.

According to police officers on night beats, scores of people, men, women and children, are crowded in a deplorable manner at local railway stations, in automobiles in garages and at any other place they can find room to "bunk" for the night.

"Second, it places this country in a false and wrong position, an attitude of encouraging powerful countries to inflict or impose any wrong upon weaker nations, by our declared policy of non-intervention."

With his report Senator McCumber submitted the six reservations he champions as substitutes for the committee reservations. These recently were made public.

on withdrawal from the league was of form. As to the Lodge reservation to Article X, Senator McCumber said he had many objections.

"First, it is an amendment pure and simple," he said, "of the most important article in the league. Its purpose is to isolate the United States as a power for the peace of the world out of the league entirely."

"Second, it places this country in a false and wrong position, an attitude of encouraging powerful countries to inflict or impose any wrong upon weaker nations, by our declared policy of non-intervention."

With his report Senator McCumber submitted the six reservations he champions as substitutes for the committee reservations. These recently were made public.

WAREHOUSE PEOPLE WANT TO RAISE RATES.

SAN FRANCISCO, Sept. 15.—Application for permission to increase their charges "on account of the increased cost of labor," were filed with the Railroad Commission here today by twelve of the largest warehouse companies in San Francisco, Oakland and Sacramento.

Warehouse labor is to be increased \$1 a day, the companies notified the commission.

An increase of 5 cents a ton in storage and 25 per cent, a ton in handling, the companies asked in the petition. A change in the minimum rates for space rentals also was asked.

Odd Fellow Centennial in Baltimore.

BALTIMORE, Sept. 15.—The Sovereign Grand Lodge, Independent Order of Odd Fellows, opened its annual meeting here today in connection with the centennial celebration of the order, which was founded in Baltimore. The affiliated branches of the organization, among them the Association of Rebekah Assemblies, began their yearly session at the same time.

TREATY ATTACKS TERMED POISON

Senator Jones Declares Peace Would Fail by Changes.

Draft Already Affords Ample Protection, He Asserts.

Overman Says American People are Behind League.

WASHINGTON, Sept. 15.—Denouncing Senators whose "insidious" declarations poison the public mind against the German peace treaty and the League of Nations, Senator Jones, Democrat, New Mexico, speaking in the Senate today said if the reservations recommended by the Foreign Relations Committee majority were adopted the treaty as well as the league covenant would "fail."

"The selfish, the ideal, the altruistic motives which have inspired this league are sufficient inducements for all the sacrifices and effort which we will be called upon to make in carrying out its provisions."

Senator Jones said in his opinion reservations as proposed by the committee were unnecessary, as ample protection was afforded by the terms of the treaty.

Article X, he declared, "is a declaration to the world that war for conquest shall end and that this declaration will be supported by the combined power of all the other members of the league."

"In my humble judgment," he added, "if this covenant is entered into wars may possibly occur, but such occurrences will be exceedingly improbable."

He denied that the sovereignty, the integrity of our country and our vital honor "would be affected by ratification."

Regarding reservations, Senator Overman said, "I fear the adoption of any reservation or interpretation to the treaty would throw the whole matter back in conference. The question is whether we can afford to take the risk."

Teachers' Pensions Total \$1,052,450.

SACRAMENTO, Sept. 15.—Total payments of pensions to teachers of the public schools of California since the first check was drawn in December, 1912, amounted to \$1,052,450, according to a statement issued by the State Board of Education here today. The total obtained for the fund from all sources amounts to \$2,625,777.36, of which teachers donated \$1,129,207.13.

CONSTITUTION DAY NO LEGAL HOLIDAY.

SACRAMENTO, Sept. 15.—Wednesday, September 17, which Gov. Stephens suggested in a recent proclamation be observed throughout the State as "constitution day," will not be a legal holiday, according to a statement late today at the Governor's office. Numerous inquiries had been received from bankers and others, it was stated.

It was urged today by Senator Overman, Democrat of North Carolina, one of the administration spokesmen.

"Until this is done," he told the Senate, "there can be no peace, but unrest, revolution, starvation and anarchy will stalk up and down the world, bringing finally, the extermination of the race of men."

Senator Overman said he had read the treaty, heard it discussed, studied it, thought it over and determined "it is my duty to support its ratification to meet the great responsibility resting upon us and aid in the completion of the victory for which our boys fought and died."

"I do not believe the Senate will refuse to ratify it," he added. "The American people are behind it, and after all our promises and pledges, and the prayers of our people for fifty years for peace, we cannot afford from the standpoint of honor to defeat it."

As to Shantung, the Senator said, "We can do absolutely nothing at this time; the time for us to protest was when Germany forced it from China twenty-one years ago. We can do nothing except trust in the solemn pledge made by Japan to President Wilson to turn back Shantung to China in a reasonable time."

He denied that the sovereignty, the integrity of our country and our vital honor "would be affected by ratification."

Regarding reservations, Senator Overman said, "I fear the adoption of any reservation or interpretation to the treaty would throw the whole matter back in conference. The question is whether we can afford to take the risk."

JOHNSON SEES VICTORY LOST.

Tells Des Moines Audience League is War Trust.

Says Treaty Would Make Mock of Independence.

Fears British World Under Terms of Covenant.

DES MOINES, Sept. 15.—Vigorous objection to the approval of the peace treaty and the League of Nations covenant by the Senate without amendments that protect every interest of the United States, was voiced by Senator Johnson of California here tonight in two addresses, delivered before large and enthusiastic audiences.

Senator Borah of Idaho was to have spoken here with Senator Johnson, but he sent a telegram from Chicago stating that he was unable to participate in the Senate debate on the peace pact.

His principal address was delivered later at the Coliseum, arranged under the auspices of the League for the Preservation of American Independence.

He was introduced by W. E. Miller, a Republican, local head of the organization. Senator Johnson was asked to denounce his engagement for Sioux City, Iowa, September 17, because of inability to make railroad connections and substituted Lincoln, Neb., for Johnson.

"We fought a righteous war and won," said Senator Johnson. "With our might and our treasure we defeated a wicked and cruel enemy. We won a peace which was a triumph for civilization, for the rights of small nations, for self-determination, for democracy. It means for England, France, Italy, and the rest of the world, vast numbers of people, immense national gain. The burden must be borne of protecting the rights of these nations against the enormous gains. The question is, and the League of Nations squarely presents it, whether we will accept the burden rest upon the winners, those who made a mock of self-determination, of the rights of weak nations, of the rights of small nations, or shall the burden, at the command of one who was a party to the mockery, be thrust upon the victors?"

"The sole reason, whispered in fear, or ominously hinted to create fear in the rest of the world, why the League of Nations should be the guarantor and underwriter of the rape of China and the partition of hundreds of thousands of people, is that the victors and the transfer of millions of human beings to England, France, Italy and Japan, is that by doing so the possibility of future wars will be minimized and there may be a greater sense of security in the possession by England, France, Italy and Japan of their newly-acquired peoples and territories."

"But this argument in its last analysis means that United States power and treasure and blood will do for England, France, Italy and Japan what otherwise they would be compelled to do for themselves. It means not the end of discontent or the cessation of war, for peoples held in cruel subjection like the Chinese, for the settlement of their long and bitter struggle for their liberty and the self-determination for which we talked so much and did so little. It means that the League of Nations will be a world—our country—must not only continue a party to the denial of these peoples' rights whenever they are asserted, but to our diplomatic denial we will add denial economically and by force of arms too."

BRITISH WORLD.

"I am not quarreling that our Allies make Germany pay the full price," continued Senator Johnson. "I do quarrel with requiring our treaty to be signed at Saloniki, which in had faith were concealed from us during the war. During the war we properly and rightly, made every sacrifice. We are demanding now, at its close, none of the spoils, but in the name of America, let us at least refuse to be treated as a party to the spoils. Out of the war Great Britain comes with a supremacy of the sea unquestioned. By the treaty she has a tour of the earth's surface and an overwhelming preponderance of the peoples of the earth. Great Britain proudly contemplates out of this peace a British world. Shall we, who neither ask nor get anything from the peace, guarantee this British world with our treaty and our man power? For this reason the officers are an unusually serious and devoted class of men. There is no drinking or gambling, although these things were once characteristic of Russian officers. The young officer of the northwestern army knows the fate that awaits him if he fails, so he works and conducts himself accordingly. He carries a rifle and fights in the battle just as the private does.

In spite of the menace that hangs over these officers, they are eager to mix with the Red. I saw a young staff officer smiling with joy as he dashed out of a general's quarters after receiving a command to take his company attack some Chinese village. As he reached the head of his company, he turned around, waving his hand, and shouted, "Thanks be to God, my children, this day we fight."

And after that, for the war, these heathen Chinese scooted out of that village under the merciless hammering of the young captain and his men was worth going miles to see.

REDS' TORTURE BLACK HORROR.

Chinese are Used to Officiate as Executioners.

About 500,000 of These Serving on All Fronts.

Drive Nails Into Shoulders of Captured Officers.

BY RICHARD HENRY LITTLE. (BY CABLE—EXCLUSIVE DISPATCH.)

REVAL, Sept. 11 (Via Copenhagen, Sept. 14).—Fighting the Bolsheviks on the Baltic sector would be looked on as rather a joke by our American doughboys who walked through the hell that raged in the Argonne Forest. Here we have no poison gas, no airplanes, no tanks, no cement pill boxes, no line after line of machine gun nests and no such stiff-necked, bull-headed fighters as the Jerries were. For whatever else the Germans were, they were grand scoundrels. The Bolsheviks have not enough going to lay down barbed wire covering their attack. They advance with very little preparation. Their first line consists of mobilized men, peasants who have been forced to join the Red armies. Behind the first line comes the second line composed of communists and Chinese mercenaries with machine guns trained on the mobilized men to compel them to fight.

DRIVEN INTO BATTLE. There are said to be over 500,000 Chinese now in Russia serving on all fronts. Besides driving the mobilized men into battle the Chinese officiate as executioners and torturers after the capture of prisoners. It is this feature that makes fighting the Reds no joke in spite of the fact that they have no gas and indulge in no night bombing. The Jerries were not very gracious to prisoners, but they did not hang them up by the feet or torture them. The gravest perils of this warfare against the Bolsheviks come not in battle but afterwards.

The Estonians and White Russians say the Reds invariably blow out the brains of the wounded, hang the prisoners by the neck or feet until dead and frequently torture prisoners.

While at the Russian front I heard of a new form of torture. The Bolsheviks' greatest rage is often turned on their officers. The higher the rank the more the torture. The device they have been using for the last few weeks to make the "punishment" more effective is to drive a nail into the shoulder of each officer through his star on his epaulet. For instance, General Kozlov, who wears one star and the staff captain has five stars on each shoulder ornament. So the first lieutenant has only one long nail driven into each one of his shoulders, while the staff captain has five.

ACCOUNTS FOR SHORTAGE. No wonder the Russian front army complains about a scarcity of officers. If I ever join this man's army I do not want any rank higher than tenth assistant corporal. For this reason the officers are an unusually serious and devoted class of men. There is no drinking or gambling, although these things were once characteristic of Russian officers. The young officer of the northwestern army knows the fate that awaits him if he fails, so he works and conducts himself accordingly. He carries a rifle and fights in the battle just as the private does.

In spite of the menace that hangs over these officers, they are eager to mix with the Red. GALLOWAY TELLS OF BURLERSON METHODS. (BY A. P. DAY WIRE.)
WASHINGTON, Sept. 15.—Former Civil Service Commissioner Galloway today told the Senate Federal Committee that when a Democrat made a lower rating in the contest for appointment as postmaster, at Buffalo, Wyo., than a Republican, Postmaster-General BurlerSON asked for a reclassification which reversed the ratings and gave the job to the Democrat.

The committee is investigating the row between BurlerSON and Galloway which recently culminated in Galloway's resignation from the Civil Service Commission, with the statement that Mr. BurlerSON was "daunting the civil service."

SAYS BAKER'S TALK OF RUSSIA IS "ALL BUNK."

REPRESENTATIVE FULLER ASKS SECRETARY OF WAR WHY AIDE TROOPS IN SIBERIA.

(BY A. P. DAY WIRE.)
WASHINGTON, Sept. 15.—When Secretary Baker told the House Military Committee today that the only reason for putting American troops into Siberia was to guard the trans-Siberian Railroad, Representative Fuller, Republican, of Massachusetts, told Mr. Baker his reason was "all bunk."

"Why shouldn't we know the real reason?" demanded Fuller. "I have heard your aide tell a story about Russian and Siberian conditions, but I don't get an answer."

Mr. Baker explained, "It is largely a matter of policy." "Your presence here, said, was to guard supplies at Vladivostok and support the remnants of the Czecho-Slovak forces. Battles fought there by Entente forces, he explained, have been defensive.

Volunteer replacements are being sent to relieve drafted men, Mr. Baker said, and have left this country.

The committee discussed a resolution by Representative Mason, Republican, of Illinois, demanding withdrawal of all American forces now in Siberia. Chairman Kahn held Congress has no authority to order such a withdrawal.

CONFERENCE OF BUSINESS MEN OF COUNTRY IS TO BE HELD IN NEW YORK.

(BY A. P. NIGHT WIRE.)
NEW YORK, Sept. 15.—Commercial interests of the United States will be asked to unite and determine on a definite plan of action regarding trade with other countries at a conference of business men of the country, to be held here October 16 and 17, it was announced today.

The conference, which will be held under the auspices of the American Manufacturers' Export Association, will discuss the export situation and, also, it is expected, will devote considerable time to considering the lengths to which manufacturers are prepared to go in utilizing facilities for financing foreign trade provided by the Edge bill.

Among those interested in calling the conference are James A. Farrell of the United States Steel Corporation; C. R. Bedford of the Standard Oil Company; E. M. Herr of the Westinghouse Electric Export Company, and W. D. Durant of the General Motors Corporation.

BLAMES SERB CRISIS ON PEACE CONFERENCE.

(BY A. P. NIGHT WIRE.)
WASHINGTON, Sept. 15.—The text of Premier Davidovitch's letter of resignation, made public today by the official information bureau of the Serbs, kingdom of the Croats, and Slovenes, reveals that the Cabinet is of the opinion that the peace conference is responsible for the crisis.

The latest news received from the Peace Conference is unfavorable, the Premier's letter to the regents said. It is in vain that the government and our delegation at Paris have made every effort to obtain the suppression or at least the modification of stipulations regarding the protection of minorities, contained in the treaty of peace with Austria and in a special political treaty, modification of which would impair the sovereignty of our state and nation, and constitute a want of consideration for our pacific development in the future. The government could not, however, give its unconditional adhesion and place its signature on such a document having an international character which did not provide for any reciprocity.

The representatives of the Serbs are not represented in the government informed of the question and consulted regarding it, have declared that such an adhesion could not be admitted. No being able and not desiring to accept for the country stipulations which limit its sovereignty and taking into account the State of the public mind, the government begs to present its resignation.

INTERESTED IN BULLITT. (BY CABLE AND ASSOCIATED PRESS.)
PARIS, Sept. 15.—Peace Conference circles are giving much attention to the published account here of the testimony by William C. Bullitt, formerly attached to the American peace delegation, before the American Senate Committee on Foreign Relations. The statement accredited to Mr. Bullitt that has aroused the most interest is one to the effect that Philip Kerr, secretary to Premier Lloyd George of Great Britain, had apologized to Mr. Bullitt for the Premier's denial in the House of Commons that approaches had been made by the Soviet government to the Entente.

Mr. Kerr has authorized the statement that "account of private conversations between himself (Mr. Bullitt), Mr. Lloyd George and Philip Kerr as reported in a New York telegram to a Paris newspaper, is a tissue of lies."

BULGAR TREATY NEARLY READY.

Balkan Enemy will Get Peace Terms on Wednesday.

Mohammedans' Protest on Oppression in Thrace.

Serbian Ministry Resigns, but Holds on for a While.

(BY CABLE AND ASSOCIATED PRESS.)
PARIS, Sept. 15.—The peace treaty with Bulgaria is likely to be handed over to the Bulgarian plenipotentiaries Wednesday afternoon, it appeared after this morning's session of the supreme council.

Premier Clemenceau presided over the session of the council, at which Premier Lloyd George was present, together with Frank L. Polk, American Undersecretary of State; Tommaso Tittoni, Italian Foreign Minister; Baron Kishiro Matsui, Japanese Representative to France, and Marshal Foch.

The length of time which Col. E. M. House of the American peace commission will remain in Paris is uncertain, it was stated officially by the American delegation today. During the months of July and August Col. House was at work in London as a member of the committee appointed by the council of heads of states to draft the types or forms of the mandates for territorial administration under the peace treaty. This committee has been engaged in drawing up documents set-

ting forth the principles of the trusteeship which shall prevail for the areas under mandate. Its work does not relate to the allotment of these territories to the various countries.

The final meeting of the committee probably will be held in Paris to dispose of a few outstanding questions. The date of this meeting will depend upon the disposal of other matters having priority.

MOHAMMEDANS PROTEST. (BY CABLE AND ASSOCIATED PRESS.)
SALONIKI, Sept. 15.—Mohammedans in Eastern Thrace have addressed a memorial to the Peace Conference at Paris energetically protesting against oppressive measures taken against them by the Bulgarians, who, it is charged, have been torturing Mohammedans. It is said that if the conference decides that Bulgaria's conduct is retained in Thrace the Mohammedans will leave the country. Several Mohammedan villages have been reported destroyed and the Greek government has sent all possible help to the region.

SERBIAN CABINET RESIGNS. (BY CABLE AND ASSOCIATED PRESS.)
BELGRADE, Saturday, Sept. 13.—Ljubla Davidovitch, the Premier, made public today his letter to Prince Regent Alexander, by which his ministry resigned. The letter, dated September 12, says latest news from the Peace Conference is unfavorable, and the "Cabinet has been unable to obtain the suppression or attenuation of the clauses dealing with minorities which infringe upon national sovereignty, and cannot sign a document of an international character which does not prescribe reciprocity."

The Prince regent accepted the Cabinet's resignation, but asked the ministers to continue in office until the crisis has been settled.

WASHINGTON, Sept. 15.—Resignation of the Serbian Cabinet and acceptance by the regent were officially reported today to the State Department.

Tonight! Take Dodson's Liver Tone!
Better Than Calomel For Liver
Calomel sickens! If bilious, constipated and head-achy read my guarantee.

Listen to me! Take no more sickening, salivating calomel when bilious or constipated. Don't lose a day's work.
Calomel is mercury or quicksilver which causes necrosis of the bones. Calomel, when it comes into contact with your bile, crumbles into it, breaking it up. This is when you feel that awful nausea and cramping. If you are sluggish and "all knocked out," if your liver is torpid and bowels constipated or you have headache, dizziness, coated tongue, if breath is bad or stomach sour, just take a spoonful of harmless Dodson's Liver Tone.
Here's my guarantee—Go to any drug store and get a bottle of Dodson's Liver Tone for a few cents. Take a spoonful tonight, and if it doesn't straighten you right up and make you feel fine and vigorous by morning, I want you to go back to the store and get your money. Dodson's Liver Tone is destroying the bile of calomel, because it is a real liver medicine; entirely vegetable, therefore it cannot sallow or make you sick.
I guarantee that one spoonful of Dodson's Liver Tone will put your sluggish liver to work and clean your bowels of that sour bile and constipated waste which is clogging your system and making you feel miserable. I guarantee that a bottle of Dodson's Liver Tone will keep your entire family feeling fine for months. Give it to your children. It is harmless; doesn't gripe and they like its pleasant taste.—[Advertisement]

TRAVELED ALL OVER THE WORLD

Treated Here, and in Europe and South America.

Tanlac Helped Him More Than Everything Else.

Enjoying Better Health Than in Years.

The following statement, which was made a few days ago by H. L. Fininger, watch-maker for Nathan Dehmann & Company, living at 36 Fifth street, San Francisco, is both interesting and remarkable. Mr. Fininger said:

"I have been treated for indigestion in France, Italy and Switzerland and in North and South America. In fact, all over the world, but Tanlac is the only thing I have ever found to do me much good. Always after eating I would have such a painful cramping in my stomach that I could hardly stand it. I had fallen off in weight until I was scarcely more than a frame of skin and bones, and my nerves were so shattered that the least little thing would irritate and upset me. I could not sleep to do any good and would get up mornings more tired than when I went to bed. My strength and energy about all left me and many a time I felt like I would be compelled to give up entirely."

"Besides taking everything in the way of treatment and medicines, I have tried all the different kinds of diet, also the rest cure, but never got more than a little passing relief. But the use of bottles of Tanlac has brought me out is more than I can understand. At the time I began taking I only weighed ninety-eight pounds, but I now balance the scales at one hundred and eighteen, making a gain of twenty pounds on five bottles of Tanlac. After finishing my first bottle, about half of the second and I could see I was getting better and from that time on my improvement was very fast. I can eat just anything now and never suffer a particle of distress afterwards. My nerves are in excellent condition so that I now get eight hours good sound sleep every night. I get up mornings now ready for a good breakfast and a full day's work. I usually put in an hour or two in the mornings working in my garden before going to the store, which would have been impossible for me before taking Tanlac. My appetite is fine now, I relish everything I eat, and am enjoying better health than I have in years. Tanlac has certainly been a life saver to me and it's a real pleasure for me to recommend it."

Tanlac is sold in Los Angeles, Pasadena, and San Diego by the Owl Drug Co.

LIVING COST IN AUSTRIA SMALL.

Pounds, Dollars, Francs Buy More than Elsewhere.

Forty Cents Day in American Money for Pension.

Native Crown Worth Little, Hard to Circulate.

BY A STAFF CORRESPONDENT.

VIENNA, Sept. 15.—(Via Paris, Sept. 14.)—Although foreigners were warned by the authorities to get out of the city by September 20, it is not likely the order will be strictly enforced. The order was actuated by the large number of strangers in the city and the small amount of provisions, but, as one newspaper points out, it is hardly possible the crowds of strangers could move in so short a time.

Besides the hotels and restaurants, some merchants, who see profits derived from transients going glimmering, are making a strong point against the order. The police are besieged by large numbers of nonresidents asking information about the regulation and the possibility of travel.

MONEY DEPRECIATED. The exchange value of the crown now has fallen so low the Austrians are beginning to wonder how soon before it will have no value at all. It is quoted at 3 1/2 centimes on the Vienna market, and its progress downward to that point has been steady. One man held American money yesterday at sixty-four crowns to the dollar.

Merchants cannot mark up goods proportionately to the exchange value of a crown, for to most Austrians a crown still is a crown and is almost as hard for them to get as formerly. While the merchants are raising the prices, it has helped to keep them within the bounds of the customers' ability to pay.

Therefore, persons with pounds, dollars and francs find Vienna to present the cheapest capital in the world in which to live. The provinces of Austria are even poorer. A man just back from vacation in the mountains of Upper Austria told me he paid fifty crowns a day for meals for himself and wife. At the present rate of exchange this means six meals for about seventy-five cents. Another man wrote he was living near Innsbruck on the pension of twenty-five crowns a day or about forty cents.

CITY OVERCROWDED. Like most big cities in Europe since the war, Vienna is greatly overcrowded. This is due to the thousands of people who have been jarred loose from their homes by refugees from all over the world. In the case of Vienna thousands of state employees who lived in states of the old monarchy which now have become republics, have been forced to return to Austria. This is particularly true of railroad employees and families who find dwellings. Thousands are living in the city railroad yards. Four railroads are filled with cars, used by refugees for sleeping. The city is crowded with people, and the winter will present a different story.

BOURGEOIS SEEK CONTROL. A big mass meeting of bourgeois and workers was held last night. The meeting was largely attended, hundreds being unable to get into the hall, and it probably marks the beginning of a sharp political fight for control of the new state.

NEWS WRITERS WALK OUT IN NEW HAVEN.

NEW HAVEN, Sept. 15.—Three afternoon newspapers here today prepared to issue their editions under unusual conditions, a strike of news writers having gone into effect on these publications following a strike on the Morning Journal Courier at last night.

Managing editors and editorial writers who were not members of the News Writers Association took up duties of editors and copy readers, while the places of street men were filled by substitutes.

The strike follows refusal of publishers to increase wages to street and desk men.

METAL WORKERS WANT HOLIDAY TO CONTINUE.

VALLEJO, Sept. 15.—The Vallejo Metal Trades Council has been advised by the Metal Trades Department of the American Federation of Labor that the question of continuing the Saturday half holiday to benevolent metal workers here has been submitted to the Cabinet at Washington, union leaders announced here today.

The Attorney-General was said to have held that the matter was in the hands of President Wilson, and a decision may be expected by September 20.

The Saturday half holiday is granted for three summer months. The metal workers here are making efforts to have it remain permanently.

VENEZUELA SHOWS GERMAN ACTIVITY.

SAN JUAN (Porto Rico) Sept. 9.—(Correspondence of the Associated Press.) American travelers who have recently arrived here from Venezuela report open evidence of renewed German activity in that country. Many Germans have been arriving in Venezuela during the past few months, and German commercial travelers are reported particularly active.

TEACHERS WANTED.

Shortage in California is First Since Early Fifties.

SAN FRANCISCO, Sept. 15.—For the first time since the early fifties California faces a shortage of teachers. Several hundred schools paying from \$75 to \$100 a month are vacant and teachers to fill the vacancies are scarce. Most of the schools are in rural districts. Calls for help are pouring in on Will C. Wood, superintendent of Public Instruction, who is now working to determine the exact extent of the shortage.

I am asking the universities and normal schools how many graduates are available," said Wood today. "It may be necessary to shorten the normal school course by one term. I am now investigating this possibility. However, every effort should be made to secure out holders of valid credentials to fill positions. Undoubtedly there are former teachers in every county who would be willing to return to school work to meet the emergency."

Wood says that under the law all districts must maintain a school six months this year in order to get State and county apportionments next year. Many districts may lapse on account of the teacher shortage.

HARRISON'S WOUNDS ARE NOT DANGEROUS.

BOTH ARE RECOVERING FROM THE BOMB OUTRAGE IN HOSPITAL IN SEOUL.

(BY CABLE AND ASSOCIATED PRESS.) SEOUL, Saturday, Sept. 14.—Mr. William Preston Harrison of Chicago, who was wounded by the bomb thrown at Baron Salto, Governor of Korea, on September 2, in an attempt to assassinate him, is not in a serious condition, though his wife, who was also wounded, is slightly injured. Both are in the Severance Hospital.

Mrs. Harrison was wounded twice in the left arm and the right arm. She has been extracted from one of the wounds. She was also wounded in the head. Recounting her experiences, Mr. Harrison said that he had just arrived from Peking and was in the station waiting for his train. He was standing near the entrance when a bomb was thrown. He was struck in the chest and the arm. He was then taken to the hospital. He is now recovering from his wounds.

ST. PAUL, Sept. 15.—The greatest bomb statement in the history of St. Paul was made today when the banks began to file their statements with the United States Controller of Currency and Minnesota Superintendent of Banks. A PICTURE OF ONE OF OUR GREAT BATTERIES OF ALUMINUM SOUP KETTLES. Our kitchens are models of efficiency—tile floors, tile walls and tile tables help to keep a Boos Bros' kitchen sweet and clean.

SOME people don't like to know too much about "the kitchen" or how their food is prepared. They prefer to be kept in ignorance of all these things.

The more people know about BOOS BROS.' KITCHENS the better they like them. We have nothing to conceal—every day "Inspection Day" with us. We insist on CLEANLINESS.

We figure one cannot be too particular when it comes to foods and their preparation.

CALL OFF STEEL STRIKE.

Unions to Await Industrial Conference.

Refuses to Talk, but Action for Delay.

National Presidents are Disposed to Wait.

(EXCLUSIVE DISPATCH.)

WASHINGTON, Sept. 15.—Samuel Gompers, president of the American Federation of Labor, returning from the Federation headquarters at the police strike in New York, refused to talk to the press and the proposed national conference of steel workers' strike September 22, but refused absolutely to meet on either.

There were indications, however, that Gompers was making an effort to obtain from the steel workers' unions consent to the proposed strike and to the industrial conference for October.

Mr. Gompers was in New York to discuss the proposed strike with the steel workers' union leaders. He was expected to discuss the proposed strike with the steel workers' union leaders.

Film Destroys Teeth
That slimy film which you feel on your teeth is the cause of most tooth troubles. Every modern dentist has placed it beyond question. Leading dentists where are urging its adoption.

Compare the results with your old methods, and your own teeth decide.

Old-time methods fail to do that. The tooth still decays, as millions of people know. The tooth is brushing, flossing and the film is still there. The film is clinging. It gets between the teeth and stays. Day and night, month after month, it is a potential source of danger.

Now a Way to End It
Science now has found a way to end it. Pepsodent has proved this. The way is now known. The dentifrice called Pepsodent. And we urge you to try it.

The film is based on peptin, the digestible of food. The film is albuminous matter. The object of Pepsodent is to dissolve it, then to constantly combat it.

But peptin must be activated, and the usual method is to use a toothbrush. So peptin is activated by the use of Pepsodent. It is made use of in Pepsodent. Now millions of teeth are daily cleaned as they were before. Try the method ten days or more.

Send this coupon for a 10-Day Tube. Use the tooth paste. Note how clean your teeth feel after the first use of the slimy film. See how the teeth whiten as the fixed film disappears.

Watch the results for a few days. Be sure to brush your teeth with Pepsodent. Then decide for yourself how they come about. Then decide for yourself how they come about. Then decide for yourself how they come about.

See how clean the teeth look—how they gleam. Then you will know what film removal means.

members had been written into the covenant.

One of these suggestions, he continued, was that the Monroe Doctrine be protected. He asserted that not only had the doctrine been specifically reserved to administration by the United States, but it had been extended to all the world. At the behest of the United States, he added, a provision also had been put in giving the members the right to withdraw.

SUGGESTIONS ADOPTED.

Most of these suggestions, said the President, had come from Republican sources. He made a plea that the treaty discussion should not be "disfigured by the least thought of domestic politics."

The crowd cheered again when he added: "I am for this league, not because I am a Democrat, but because I am an American and a lover of mankind."

Saying he meant no disrespect to the league opponents, Mr. Wilson stirred up another outburst of cheering when he added that he had "no respect whatever for some of them."

The question of reservation also was discussed by the President, who said he saw no objection to such interpretations as would not send the treaty back to the conference table. But it would be very awkward, he added, if qualifications were put in which would require the consent of Germany.

The President asserted that "a very few men now were proposing that the covenant be changed to give

A Simple Way to
Reduce Wrinkles

Remember that wrinkles and bagginess of cheek or chin are due to the muscular tissue losing its strength and shrinking. The skin is then too large in area to fit such tissue smoothly. It wrinkles or sags.

To remedy this condition, there's nothing so effective, so quick-acting, as a simple wash lotion as is made at home. Just get an ounce of pure powdered salicylic acid and add it to a quart of witch hazel, mix the two and bathe your face in the liquid. This at once tightens the skin and solidifies the underlying tissues—which, of course, smooths out the lines and draws in the sagging skin. It also stimulates capillary circulation, bringing natural color to faded cheeks.

Really Removes Roots
of Superfluous Hair

Without doubt, the greatest thing yet discovered for hair-disfigured women is the wonderful phenolic method. It is the name of the "What Women Want" electrolysis or depilatories and, best of all, it removes the hair entire, roots and all. It does this instantly, leaving the skin as smooth and soft as if no one can tell the user was ever the possessor of a moustache or other hairy growth.

Phenol is a non-irritating, non-detracting, non-damaging, non-drying, and so harmless a child could use it without any ill effect. A stick of this remarkable substance, accompanied by simple instructions, can be obtained at any drug store. What woman would not be delighted after seeing those ugly hairs come out—including the roots—without her own eyes?

"We rely upon your unflinching support to the end that the high ideals for which America stands may endure upon the earth."

PRESIDENT'S PORTLAND ADDRESS

Quotes from Speech of Senator Lodge in 1915 Urging
Union of Nations to Prevent War; Says Ob-
jections to Original Covenant All Were Met.

(BY A. P. NIGHT WIRE.)

PORTLAND (Or.) Sept. 15.—Speaking tonight at the Auditorium, President Wilson said in part:

"As I have come along the country and stopped at station after station, the first to crowd around me have almost always been little children; bright-eyed little boys excited little girls, children all, and I thought as I looked upon them that after all it was they to whom I had come to report. I had come to report with regard to the safety and honor of subsequent generations of America, and I felt that if I could not fulfill the task to which I had set my hand I would have to say to mothers with baby babies at their breasts you have occasion to weep; you have occasion to fear the future and all this terrible thing that your brothers and husbands and sweethearts have been through may have to be gone through with again."

"I found quoted in one of your papers the other day a passage so appropriate that I do not know that I can do better than read it as the particular thing that it is found necessary to do—namely unite as men unite—in order to preserve peace and order."

"The great nations must be so united as to be able to say to one another 'you must not go to war' and they can say that effectively when the country desiring war knows that the force which the united nations apply behind peace is irresistible. In differences between individuals the decision of a court is final, because in the last resort the entire force of the community is behind the court decision; differences between nations go beyond the limited range of arbitral questions. Peace can only be maintained by the public behind it, the force of united nations determined to uphold it and prevent war."

QUOTATION FROM LODGE.

"That is a quotation from an address said to have been delivered at Union College, in June, 1915, a year after the war began, by Mr. Henry Cabot Lodge of Massachusetts. [Laughter, and applause.] I entirely concur in Senator Lodge's conclusion, and I hope I shall have his co-operating in bringing about the desired result. [Laughter and applause.]

"In other words, the only way to prevent the unspeakable thing from happening again is that the nations of the world should unite and put an irresistible force behind peace and order."

"There is only one conceivable way to do that, and that is by means of a League of Nations."

"I don't find any man anywhere, rash or bold enough to say that he does not desire a League of Nations. I only find men here and there saying that they do not desire this League of Nations. And I want to ask you to reflect upon what that means. When this covenant was drawn up in its first form, I had the occasion, for me a very happy occasion, to return for a few weeks to this country. In March last, I brought the covenant in its first shape; I submitted it in an intimate conference to the Foreign Relations Committee of the Senate of the United States, or, rather, to the two committees of the two Houses, the Foreign Relations Committee of the Senate and the Committee on Foreign Affairs of the House. We discussed all parts of the document. Many suggestions were made. I took all of these."

LUNCHEON ADDRESS.

In his luncheon address the President said in part:

"I think we are all now convinced that we have not reached the right and final organization of our industrial society; that there are many features of our social life that ought to undergo correction. There are antagonisms set up that breed heat because they breed friction, and the world must have treasure and order unless it has a guaranteed peace."

"Whether you will or not, our fortunes are tied in with the rest of the world, and the choice that we have to make now is whether we will receive the influences of the rest of the world and be affected by them or dominate the influences of the world and lead it. [Applause.]

"I deeply regret the suggestions which I hear made on some sides that we should take advantage of the present situation in the world, but should not shoulder any of the responsibilities."

"What are you going to be, boys, running around the circus tent and peeping under the canvas? Men dealing to pay the admission and sitting on the roof and looking in on the game? Or are you going to play your responsible part in the game, knowing that you are trusted as a leader and upbore both? [Applause.]

PRINCIPAL PARTNERS.

"If you are going to put into the world this germ, shall I call it, of American enterprise and American faith and American vision, then you must be the principal partners in the new partnership which the world is forming. [Applause.] I leave to say without intending the least disrespect at anybody, that conceivably or unconsciously, a man who opposes that proposition either has no imagination or no knowledge or is a quitter. [Applause.] America has put her hand to this great enterprise already in the men she sent overseas and their part was the negative part merely."

"Every drop of blood I have in me gets up and shouts when I think of the opportunity that America has. I come of a certain stock that raised Cain in the northern part of the island of Great Britain [laughter] under the name of the Covenanters. They met in a church yard and on the top of a flat tombstone, they signed an immortal document called the solemn league and covenant, which meant that they were going to stand by their religious principles in spite of the crown of England and the force of England and every other influence, whether of men or the devil."

"Now I have seen men of all nations sit around a table in Paris and sign a solemn league and covenant. They have become covenanters and

has made its appearance over the ridge in Cattle Canyon. Fighters are hoping that the dry river bed of the last named canyon will afford an opportunity to stop the fire.

Webster's camp between the two canyons is entirely surrounded and it is thought much property loss will result there. The blaze has already laid waste a territory comprising approximately eight square miles and is fast gaining ground in its approach toward Camp Baldy, five miles away.

Hundreds of citizens from Pomona, Claremont, Upland and Ontario have joined the forces fighting the fire and are divided into two groups, the first under Forest Supervisor Charlton working from the San Gabriel end of the fire and the other, with Forest Ranger Arthur Shary in command, combating the blaze from the east end of Cattle Canyon.

CHING AGAIN PLEADS.

Answers not Guilty to Third Narcotic Law Charge.

Dr. Henry Ching, dealer in narcotics, failed to answer when his case was called by Judge Trippe in the United States District Court yesterday morning. Visions of Ching forfeiting his bail of \$5000 were dispelled at the afternoon session, however, when he appeared and pleaded not guilty to the third pending indictment against him for alleged violation of the Harrison narcotic law.

At the suggestion of Assistant United States District Attorney Lawton, the trial date was set for October 2, when the two other pending indictments will be consolidated with the final one, and the hearing cover all three. There is also pending against him a complaint alleging a fourth violation of the narcotic law, but his preliminary examination has not yet been held on this.

DRIVE STARTS WELL.

American Legion Officials Are Pleased with Response.

Results of the first day's drive by the American Legion for new members were tabulated last night at headquarters in the Bumiller Building and pronounced to be highly satisfactory. The campaign will close Saturday night.

A long step was taken yesterday, it is said, toward getting the 5000 members, which is the Los Angeles quota. California is to supply 30,000 members. Two posts in this city are receiving applications for membership. They are Los Angeles Post and Victory Post. Officers are maintained in room 314 Bumiller Building, 430 South Broadway. The only credential necessary for entrance is an honorable discharge from the army or navy. The men in charge of the local campaign say that they expect to go well over the top, as about 23,000 men in Los Angeles were in the service.

BLAMES WILSON: LEAVES DEMOCRACY.

(BY A. P. NIGHT WIRE.)

SAN FRANCISCO, Sept. 15.—Announcement that he had resigned from the Democratic party "because President Wilson betrayed Ireland, Egypt, India and China," was made here today by Timothy E. Treacy, prominent as a member of the Democratic State Central Committee, and Past Grand Master of the Schem of the Iroquois Club, a Democratic organization.

The letter of resignation was sent to John E. O'Brien, present head of the Iroquois Club.

IMPERIAL RANCHERS FAVOR BOND ISSUE.

VOTE TO ISSUE SECURITIES TO CALL IN OUTSTANDING INDEBTEDNESS.

(EXCLUSIVE DISPATCH.)

EL CENTRO, Sept. 15.—Voters of the Imperial Irrigation district today ratified the decree of the board of directors of the district for a bond issue of \$5,000,000, by a vote of 693 to 207, with a number of small precincts to hear from.

The money will be used to cancel a million and a half dollars in outstanding warrants, thus repairing the credit of the district, and for new construction and maintenance of the present canal system.

Not a precinct heard from but what a favorable vote was cast. A threatened tax of \$4 an acre, to be levied in case the bonds failed to carry, is thought to have had much to do with their success.

OBJECT TO BULLOCK'S BUILDING OVER ALLEY.

Councilmen Mallard and Wheeler objected to the suspension of the rules yesterday, when the ordinance granting a permit to erect an overhead and underground passageway across St. Vincent place—to connect the two Bullock store buildings—came before the City Council. The result was that the ordinance must go over one week. Each of these objectors urged that the granting of such a permit is setting a dangerous precedent, and that, in any event, the city should be reimbursed for the space used in a public alley.

NET OF INCOME TAX EXTENDED.

Southern California Great Registers Being Combed by Government.

How Uncle Sam Intends going after the income tax in the local district was exemplified yesterday at the office of Collector Carter by the arrival of copies of the Great Register of Voters in Los Angeles city and county. Similar lists, covering the counties of Santa Clara, Santa Barbara, Ventura, Kern, Orange, Riverside, Imperial, San Bernardino and San Diego, will be secured at the various county seats.

These registers contain hundreds of thousands of names and every man who is not on the income-tax list will be looked up. In the smaller communities, where every man knows the standing of his neighbor, these lists are expected to be invaluable.

GULF HURRICANE IS DISASTROUS

(Continued from First Page.)

In Corpus Christi, according to a message from former Mayor C. Miller of that city to headquarters of the Southern Department, U.S.A., at San Antonio, and forwarded to the State Adjutant-General's department here late today:

The message repeated estimates of 3000 persons homeless and in need of supplies, and property damage reaching \$2,000,000.

Gov. Hobby has requested Maj. Gen. Dickman, commander of the Southern Department, to send rations, coats and blankets to Corpus Christi if the report of these rangers is that one is needed.

The Governor also began the order. The Governor also dispatched three Texas rangers to Corpus Christi with instructions to get into the town and send back a report on conditions. The Adjutant-General's department says that a military guard will be rushed to Corpus Christi if the report of these rangers is that one is needed.

RELIEF TRAIN SENT.
(BY A. F. DAY WIRE.)
SAN ANTONIO, Sept. 15.—From fifteen to twenty-five are dead; 4000 people are homeless and property damage amounting to \$4,000,000 has been caused as a result of the tropical storm which struck Corpus Christi Sunday, a long distance from the Gulf coast. The Corps Christi tonight said. The city is without light and water, and is in a state of chaos. A relief train sent to Corpus Christi tonight. The train will carry tents, coats, blankets, medical supplies and several thousand cases of food-stuffs.

A telephone message from Sinton, Tex., says the bodies of three victims of the Gulf storm, presumably from Corpus Christi, washed ashore at White Point, Tex., this afternoon. Several people were sighted near White Point on rafts.

It was said the water had reached the second story in some buildings in the business section and the downtown section was reported under martial law. The information was received over the telephone.

FEAR IMMENSE DAMAGE.

DALLAS, Sept. 15.—Reports late today, not fully confirmed, however, were that at least 3000 people were homeless in Corpus Christi and were in need of help. It is said most of these probably were from the North Beach residential section, which lies lower than the rest of the city.

Fears of serious property damage around Corpus Christi Bay were expressed here today by former residents of Corpus Christi, who said that if the water from the Gulf storm had reached a depth of six feet in certain sections of the city, as reported, it was almost certain that many dwellings along the bay had been washed away.

Efforts were renewed today to restore wire communication with Brownsville and Corpus Christi. From Brownsville the army radio station was able to flash last night a brief dispatch that the worst of the storm had passed. No mention of loss of life was made. The last direct report from Corpus Christi, late yesterday afternoon, said the wind had attained a velocity of fifty miles an hour.

Numerous Coast cities, including Galveston reported heavy property damage but no fatalities.

APPEAL FOR SUPPLIES.

(BY A. F. DAY WIRE.)
HOUSTON, Sept. 15.—An appeal for food, bedding and general supplies was sent out late today from Corpus Christi, received here by wire from Refugio.

The message, which was signed by Roy Miller, chairman of the Corpus Christi relief committee, and former Mayor of that city, added that twelve or fourteen persons were known to be dead and that the storm damage is estimated at \$3,000,000.

The message said: "Please spread word that food supplies, coats, bedding and general supplies should be rushed to Corpus Christi at once. Aid and relief necessary account result of storm. Damage approximately \$3,000,000, with twelve or fourteen known dead and great number homeless."

(Signed) "ROY MILLER."
Twelve persons are known to be dead in Corpus Christi, the result of the tropical storm Sunday, according to a message received late today by the telephone department of the Gulf Coast lines from the division superintendent at Kingsville, Tex. The message read "three million dollars property damage, twelve known dead, water six to twelve feet deep in Corpus Christi."

At Kingsville, the Gulf Coast Line's roundhouse was destroyed. The message is the first direct word from what is believed to have been the center of the tropical disturbance which swept inland from the Gulf of Mexico Sunday between Corpus Christi and Brownsville.

The radio is believed to have been from a ship, the signature being that of Capt. Butler, deputy collector of customs for Port Aransas and Corpus Christi.

Port Aransas, thirty-five miles from Corpus Christi, on the upper end of Mustang Island, was completely demolished by the hurricane Sunday, according to a wireless message picked up here today, which read:

"Port Aransas completely demolished by hurricane. Customs office and all records lost."

HOUSES, CROPS DESTROYED.
(BY A. F. DAY WIRE.)
VICTORIA, Sept. 15.—Victoria is still cut off from the storm stricken territory in the Brownsville district, but reports from near the coast in Victoria, Matagorda and Calhoun counties indicate that the side sweep of the storm razed summer houses, destroyed some cotton crops, but did not take any human life.

A pavilion, a public building and one house are down at Port O'Connor. A forty-mile wind, accompanied by rain, was the worst feature of the storm evidenced here, but that was sufficient to complete the ruin of the cotton crop near here.

BROWNVILLE ESCAPES.
(BY A. F. DAY WIRE.)
BROWNVILLE, Sept. 15 (via army radio to the Associated Press.) Brownville suffered no serious damage from the high winds that accompanied the tropical hurricane that touched the Texas coast early Sunday. The hurricane apparently did not hit the lower coast country.

The rainfall here was 4.75 inches.

"Out of Action" with a red hot gun

IN spite of six quarts of water within, the jacket of a machine gun is too hot to handle after three or four minutes of firing.
For the water jacket is metal and metal is a quick conductor of heat.
So part of a machine-gunner's equipment is a pair of asbestos gloves, with which he can handle the hot machine gun freely.

Asbestos repels heat

That's why asbestos gloves are issued to machinegunners and that's why a layer of asbestos is built between two strong walls of steel in the

"Y and E" FIRE-WALL STEEL FILING CABINETS

We ourselves make plain-walled steel cabinets. But not for fire insurance. For we know this, that heat penetrates ordinary steel and sets fire to the papers without a flame having touched them. These are the only cabinets built with double walls, and asbestos lined, like safes.
Due to the asbestos, dead air, and double walls—the Fire Wall cabinets—"Y and E" Fire-Wall Steel Filing Cabinets are several times resistant to fire and heat as any plain-walled cabinet made.

Cost no more
Now these better cabinets cost no more, why not get them? They are the same, your contracts and orders will be many times safer. One fire will convince you. Why wait for a fire?

It will pay you to ask for our new booklets "Steel Cabinets That Protect" and "Vertical Filing Down-to-Date."

STATION IS RENAMED.

Old East Side Police Quarters Now "Lincoln Heights."

The name of the East Side Police Station is to become a matter of ancient history. Henceforth this place will be known on all official records as the Lincoln Heights Police Station. The Police Commission yesterday complied with the request of improvement associations in Lincoln Heights and officially changed the name.

CLAIM LAUNDRIES OVERTAK THE SEWER.

Clanton street, between San Pedro street and Griffith avenue, has an overcast sewer, and plans for its relief are likely to cause considerable discussion among the property owners before they are settled. Some time ago a relief extension was put in, but it has proved unsatisfactory, as the laundries on Clanton avenue discharge such large volumes of water that it backs up into the manholes. Now it is proposed to lay a large sewer pipe at the expense of the abutting property. The contention is raised, however, that as the laundries are the main users of the sewer, they should stand the expense of the larger pipes. The Council yesterday referred the matter to its Public Works Committee, and there doubtless will be some lively hearings on the subject.

NO MONEY FROM HER.

Wife Seeks Order Restraining Husband from Asking It.

William Stansbery, in Judge Crall's court yesterday, where Mrs. Elizabeth O. Stansbery sought an order restraining her husband from asking her for money, said he had \$2000 which he divided with her. She became ill, he said, and he then paid out the \$1000 he had for bills. "I never saw a dollar of it," said Mrs. Stansbery. "On the wedding trip he gave me \$5. Several days later he asked me to let him have it, which I did." Since the suit was filed, she said, her husband asked her for money over the telephone. Mr. Stansbery said he had no money and was looking for work. The court decided under the circumstances he could not make an order for alimony.

TWO WOMEN PREFER FOOTLIGHTS TO HOME.

BOTH REFUSE TO LEAVE THE STAGE SO MATES GET DIVORCE DECREES.

When Florence Eamonde, with the Gertrude Hoffman company, swept across the stage of a local theater some time ago in a dazzling creation of green, there was one man in the audience whose heart beat a tattoo on his ribs. That man was her husband, Maurice Hamson Dukes, whom she had repudiated for the stage. Yesterday Mr. Dukes was in Judge Crall's court seeking a divorce. The decree was granted. Mr. and Mrs. Dukes were married in New York, October, 11, 1909. They separated March 10, 1918. A letter Mrs. Dukes wrote her husband indicated that she was happy in her profession, and did not intend to return to him. The latter was represented by Mrs. N. Courtwright, attorney, whose grandfather was once Governor of Kentucky. Mrs. Nora Waggoner is another actress who prefers the stage to a home. When her husband, Carl A. Waggoner, wrote her she replied: "I received your letter asking me to go and live with you, but all I have to say is this, I will never live with you." Mrs. Waggoner is now on a concert tour. With the consent of her husband, she went East with the understanding that, after an experience on the stage, she would come back. Mr. Waggoner said she did not find the "girls" as nice as they would be, but he felt the moral effect would be bad for his wife. Mrs. Waggoner refused to return. She said word that she did not care to be a housewife again. Yesterday Judge Crall granted Mr. Waggoner a divorce.

FIVE MINUTES ONLY.

Sentence on Woman's Guilty Plea After She Tells Story.

United States District Judge Triplet yesterday sentenced Mrs. Agnes Jeffries to spend five minutes in the custody of the United States Marshal on her plea of guilty of sending scurrilous postal cards and letters through the mails. The woman said she had been deserted with her four children at Tucson, Ariz., by her husband, who came to Los Angeles with another woman. The letters and postal cards complained of were written to the woman who had wrecked her home, she said. The story of Mrs. Jeffries made a deep impression on the court. "Many a time I have washed clothes for my neighbors at night and been compelled to wait until the moon came up to hang them out, to get money to feed my children," she said. She showed where she had been cut by a knife she said her husband used on her. "I think you have arrested the wrong person, Mr. Crane," said the court to the Assistant United States District Attorney.

SEPTEMBER 10, 1910. [PART II. 12]

This image shows a vertical strip of a document page, likely a ledger or index. The page is heavily degraded and stained, with a large, dark, irregular stain running vertically down the center. The text is mostly illegible due to the damage. On the left side, there is a column of numbers and some text, which appears to be a list or index. The numbers are small and difficult to read, but they seem to be arranged in a structured manner. The overall appearance is that of an old, worn, and damaged document.

The National City Company buys \$10,000,000 of Firestone Preferred Stock

*Firestone production is increasing so rapidly under demand
from our 42,000 dealers that this additional capital was required*

Although the two great Firestone plants at Akron are turning out daily 22,000 tires and 25,000 tubes, the demand from passenger car owners and truck operators continues to outstrip production.

Additional equipment already ordered for Plant No. 2, which is devoted exclusively to the manufacture of 3½-inch tires and tubes, will increase the output of this one manufacturing unit to 16,000 tires a day; while in the parent plant increased equipment for the manufacture of Cords is steadily building the output to its capacity of 20,000 tires daily, which will give a total capacity of 36,000 tires a day.

These equipment requirements and the need of a new steel plant that will double the output of Firestone Rims, are being met by an issue of \$10,000,000 7% Preferred Stock, the entire amount being taken by The National City Company, the world's largest distributors of high-grade securities.

On the financial page of this paper you will find an advertisement signed by The National City Company, which gives some interesting facts about the financial strength of the Firestone Company—a strength that is founded on twenty years of sound

business policy and is an index of the character of the Company's products.

The National City Company is in the business of buying and distributing through its many correspondent offices the securities of corporations that are so well managed, so conservatively financed and whose products fill such a public need, that they measure up to its exacting standards of what should constitute a prime investment.

It is a high tribute to the quality of Firestone products and to the great dealer organization through which they are distributed that the demand for them should so increase as to require this additional capital to meet it. And it is a tribute to the character of the Firestone institution that the distribution of this entire \$10,000,000 Preferred Stock issue should be undertaken by The National City Company.

See that you get the values in mileage and service that are responsible for this demand for Firestone Tires and this standing of the Company. Whatever type of tire you use, there is a Firestone to suit your needs—of a quality that assures you the economy of MOST MILES PER DOLLAR. Ask your dealer for Firestones. Have them put on every wheel of your car or truck.

Thanks!

Yanks!

Firestone employees number 17,000
Firestone resources exceed \$73,000,000
The company's volume of sales last year was over \$75,000,000
Daily output of the factories at this writing is 22,000 tires and 25,000 tubes
When equipment now ordered is installed, the output will be 36,000 tires and 40,000 tubes daily
Firestone makes rims for over half the makes of passenger cars built
Firestone makes demountable rims for 62% of the different trucks that equip with giant pneumatic truck tires
Firestone makes the tires on which over half the truck tonnage of America is carried
Firestone maintains an organization in the Far East at Singapore, the rubber headquarters, to insure best grades at lowest costs

Firestone invested in a fabric mill to insure first quality, steady supply and lowest costs
Firestone built a separate factory and designed special machinery for it to make a big saving for users of 3½-inch tires—enabling the main plant to concentrate on cord tires and truck tires.

for
Aged
people

THE BANE of old age is constipation. The bow-
els become weak and unable to perform their
functions without aid. For this purpose only
mildest and gentlest laxative should be used.
Use of harsh cathartics aggravates the trouble
makes the constipation worse. Chamberlain's
Tablets are a favorite with people of middle age
older on account of their gentle action.

HOMES
On Rental Terms
BUY—and Be Independent of the
Landlord and High Rents.

These days we are selling homes before they are finished
and there is a decided advantage in buying a home in this
way, as the purchaser can choose the final interior decora-
tion, such as the wall paper, electric fixtures, giving it indi-
viduality. Furthermore, he can direct the gardener in terracing
and in planting the flowers and ornamental shrubbery as we
have such a large home from our own big nursery.

TRACTOR DISPLAY UNIQUE.

Believing that, because of soil and
culture conditions more diverse and
complicated than those of other
regions, the Southern California
farmer welcomes the help that trac-
tor demonstrations give him, officials
of the Tractor Engine and Imple-
ment Dealers' Association of South-
ern California are confident of a re-
cord attendance at the opening today
of the fourth annual tractor demon-
stration, on a 300-acre field at Cres-
cent and Melrose avenues, West
Hollywood.

This will be a demonstration
unique in the West, it is declared.
Every exhibitor of tractors will have
a "still" showing of tractors in a
tent at the head of his allotted space,
and will demonstrate his machine to
interested visitors upon request on
a plot of ground in the rear of his
tent. This plan is designed to meet
the objection of some dealers that
the farmer knows tractors can do all
kinds of farm work, but wants to
view the new models of farm-power
machines.

President H. L. Marsh, of the as-
sociation, announced yesterday that

all is in readiness for the big show.
More than thirty acres of tents are
up and the exhibits all ready for
the first crowds. One of these
tents, housing the tractor accessories
and various helps to farming, is 350
by 150 feet in size. Six other tents
cover exhibits of farm implements
and machines. Many of them in
operation. Ingenious aids to farm-
ing will be shown for the first time.
A dozen tractors new to the South-
ern California field will be seen for
the first time.

Thirty-one exhibitors of tractors
and implements, and almost double
that number of accessory exhibitors,
are showing over a half-million dol-
lars' worth of farm machines, tools,
and farm helps of various kinds.
One tractor exhibitor has twenty-
eight machines on the ground, half
of them already hitched up to vari-
ous plows, cultivators, seeders, spray-
ers, hay-balers, sprinkling wagons,
etc.

The annual banquet of the Tractor
Dealers' Association will be held at
the Alexandria tomorrow evening.
President Marsh will be toastmaster.
A dozen men famous nationally in
the farm tractor and implement field
will be guests.

FIVE NATURALIZED.

Chinese Soldiers, With Native-Born
Parents, Also Apply.

Under the Federal law making sol-
diers serving in the American army
eligible for American citizenship,
with no regulations to carry out ex-
cept to have two witnesses willing
to swear to their good character,
United States District Judge Trippet
yesterday naturalized the following
aliens:

Thomas O'Connor, Robert Mo-
neal Birks, Alfred E. Cornwell and
Thomas J. Doyan, natives of En-
gland; Ivar L. Bengtson, a native of
Sweden.

Lew Leung Wing and Lew Chin
Kim, Chinese soldiers who had
served in France, made application
for citizenship, but in appearing
that they both claimed to be sons
of California-born Chinese parents
in China, making naturalization un-
necessary, the matter went over for
further investigation.

GARRETT TRIAL SET.

To Hear in December Case of Several
on Missing Mails Charge.

The trial of L. H. Garrett, former
president of the Home Builders'
Company, indicted with others for
using the mails in a scheme to de-
fraud, was set yesterday by United
States District Judge Trippet for De-
cember 2. It is understood that the
trial covering a half dozen defend-
ants will run a month or more.

Garrett was brought here on re-
moval proceedings from San Fran-
cisco after a two-years' fight,
the accused man carrying the litigation
to the United States Supreme Court.
The case will closely resemble the
prosecution of Charles A. Elder and
others connected with the Los An-
geles Investment Company, tried on
a similar charge before Judge
Bledsoe, four years ago.

SIX JAPANESE FINED.

All for Not Giving Food Proper
Sanitary Protection.

Six Japanese roadside marketers
were fined yesterday by Justice
Forbes on charges of violating the
State health laws by not protecting
fruit and vegetables in a sanitary
manner. One fine of \$5, against H.
Onoda, was paid, and the others,
ranging from \$5 to \$10, were sus-
pended when it was shown, to the
satisfaction of the court that the
Japanese provided sanitary pro-
tection after being warned. Those
whose fines were suspended are G.
Uchitaka, O. Kamida, Mrs.
Uchida, T. Uchida and S. Heoyashi.

Doubt exists regarding causes that led to the death of William J. Rogers, a miner, at the Norwalk State Hospital about a week ago, according to information furnished the District Attorney yesterday. County Autopsy Surgeon Wagner conducted a post-mortem examination yesterday and, while he declined to comment on the result, it is stated the autopsy revealed that Rogers' neck had been fractured and that it bore several contusions.

Dr. Wagner consulted with the District Attorney. An inquest will be conducted at 2 p.m., today at the South & Boylston morgue.

IT IS THE TORO MOTOR CULTIVATOR AND TRACTOR — A COMBINATION UNIT, SO CONSTRUCTED AND SO ADAPTED THAT IT WILL DO ALL THE WORK ON THE SMALL FARM. AND THE PRICE PLACES IT WITHIN REACH OF EVEN THE SMALLEST TEN ACRE FARMER OR ORCHARDIST.

TORO MOTOR CULTIVATOR CULTIVATING BEANS NEAR SACRAMENTO, CAL.

By all the work, we literally mean all the work formerly done by horses. A small bean farmer, for instance, even though he may own a small tractor, is forced to keep several horses on hand for planting beans and cultivating the bean rows after the beans are up. A four-row bean planter can be attached to the TORO CULTIVATOR and the beans planted more quickly than horses can ever do it. After the beans are up, a cultivator bar with bean blades attached can be installed and four rows cultivated at a speed of three miles an hour.

IN NORTHERN CALIFORNIA BEAN FIELDS THE TORO CULTIVATOR THIS SUMMER CULTIVATED FOUR ACRES IN HOUR, 40 ACRES DAILY.

A TWO HORSE TEAM AND ONE MAN WILL CULTIVATE EIGHT ACRES DAILY. THUS THE TORO DISPLACED TEN HORSES AND FIVE MEN DAILY. GASOLINE CONSUMPTION WAS EIGHT GALLONS IN TEN HOURS.

When cutting times comes, cutter knives can quickly be installed and the beans made ready for the windrow.

EVERY ROW CROP GROWN IN CALIFORNIA CAN BE CULTIVATED WITH THE TORO. BEANS, CORN, POTATOES, TOMATOES, SUGAR BEETS, COTTON, VEGETABLES—all come within the scope of this great machine.

Grain can be drilled, a mower pulled, a side delivery rake attached.

Following these operations a still more remarkable adaptation of power is available. Notice the picture of the cultivator above. It is ninety inches wide.

All the mechanical attachments necessary to cultivation are there. THEN NOTICE THE SECOND PICTURE OF THE TORO TRACTOR.

IN HALF A DAY THE CULTIVATOR CAN BE STRIPPED, NARROWED DOWN TO THIRTY-SIX INCHES IN WIDTH, TWO SMALL FRONT WHEELS ATTACHED, AND YOU IMMEDIATELY HAVE A MOST EXCELLENTLY BALANCED FOUR-WHEEL TRACTOR, THIRTY-SIX INCHES WIDE AND FORTY-EIGHT INCHES HIGH.

This tractor in itself will do many things other tractors have always failed to do. What tractor could ever plow and cultivate hop vines after the vines were up?

THE TORO TRACTOR IS NARROW ENOUGH AND LOW ENOUGH TO WORK BETWEEN THE HOP VINES AT ALL TIMES. It will pull two ten-inch bottoms, a ten-bladed shovel cultivator, or a five-foot disc.

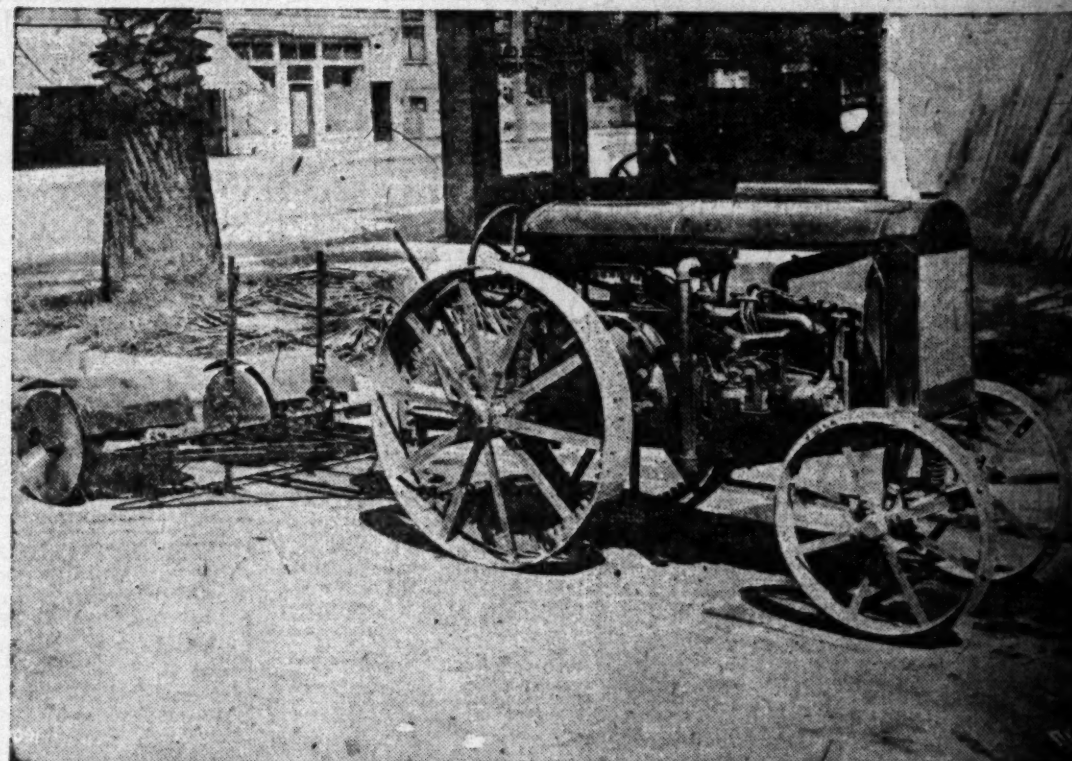

It will plow and cultivate six foot vineyard rows—something no tractor has done successfully. It will work in orange groves where the trees grow almost together. It will work in asparagus rows. It will go under the lowest hanging tree limbs.

And so we may now say to you that we present the real universal power unit. It is the highest known type of power adaptation to farm work. It spells the complete elimination of horse-drawn tools on the farm—an evolution long predicted but long delayed.

IN THE MIDDLE WEST THE FARMERS KNOW THE TORO WELL. FOR THREE YEARS IT HAS BEEN DISPLACING HORSES IN THE CORN FIELDS OF THESE STATES. IN ADAPTING THE TOOL TO CALIFORNIA CROPS THIS HOUSE HAS AGAIN PROCLAIMED ITS LEADERSHIP IN POWER FARMER MACHINERY.

The price of the TORO MOTOR CULTIVATOR, complete with cultivator attachments, is \$995.00 f.o.b. Sacramento or Los Angeles. The price of the TORO TRACTOR is \$970.00, complete, at the same points. The price of the combination of the tractor and cultivator is \$1150.00, here. We can offer you either or both. Should you buy a tractor or cultivator now and a year from now desire the attachments necessary for the combination, these can be had for \$145.00.

Both cultivator and tractor will be displayed at the Tractor Show. CALL AND SEE THEM IN THE TENT WITH THE KHAKI TOP.

BLAMES DEATH ON SLAIN SON.

Father Clears Motorist of Manslaughter Charge.

Is Candid in Testimony in Auto Accident Case.

Taft Justice of Peace Wins as His Own Attorney.

Charles J. Thompson, grieving because of the death of his son, Raymond, killed in an accident, yesterday took the stand in Justice Brown's court on behalf of the man who was accused of manslaughter in connection with the death. The father, by a straightforward story, exonerated George M. Cook, justice of the peace at Taft, and the court dismissed the charge.

Mr. Thompson testified that his son was a "speed demon," that he had a motorcycle, that he would go seventy miles an hour and was killed while racing with other boys along the Lankershim road. He said the others called on him and said his son had outdistanced all rivals and a bet of \$25 had been placed on the race that resulted in the death. The father said he learned that Justice Cook's car did not even collide with the four racing motorcycles, but the boys were riding four abreast and had to turn out of the road when the justice's car approached. That was August 27 and the Thompson boy died the same day.

Justice Cook was also charged with failing to give aid to Ray Newman, who was injured. This charge, as well, was dismissed by Justice Brown.

Justice Cook conducted his own case, calling Deputy District Attorney Randall as a witness. He questioned Mr. Randall regarding the issuance of the complaint against him. Mr. Randall said he issued the complaint on information from E. G. Martin, 789 East Seventeenth street, and Deputy Sheriff Perdue.

CAPTURED BY WOMAN.

Now Second-degree Burglar is Sentenced to Prison.

Arthur McGillis, sentenced yesterday by Judge Cralle to San Quentin prison for second-degree burglary, was captured by a woman and turned over to the police, according to a report on an application for probation made yesterday by Probation Officer Dodds.

It was shown that McGillis went into a room in the Castaneda apartments, Venice, last July 24, but tried to back out when confronted by the occupant, Mrs. Elizabeth Ellis. Instead, the woman grabbed him, called the owner of the place, sequestered him and found a number of pieces of jewelry.

WIFE ASKS RECEIVER.

Court Refuses Unusual Request in Divorce Action.

Pending the trial of her divorce suit against W. R. Petty, formerly district manager of a telephone company, Mrs. Marie Petty, in Judge Cralle's court yesterday, asked for the appointment of a receiver for their community property.

At the two sessions of the public hearing which was given to Mr. Petty, the former teacher, was told the court that what he practically a settlement has been made. He said Mr. Petty had deeded his Glendale home to his wife, giving her the furnishings, and had arranged for the disposal of other effects. The court denied the motion for a receivership.

The divorce complaint charges Mr. Petty with desertion. In a former action for separate maintenance Mrs. Petty was awarded \$75 a month, and the order was continued. The divorce suit will be tried October 31.

DENIES HUSBAND HAD LOVE TO BE STOLEN.

DEFENDANT SAYS PLAINTIFF LOST AFFECTIONS BY HIS OWN ACTIONS.

George T. Mahana, wealthy insurance man, who was made defendant in a \$50,000 alienation suit by Thomas M. Green, in an answer filed yesterday, denies that Mr. Green and his wife, Helen I. Green, were deeply attached to each other or that their separation was caused by his interference.

He denied that he coaxed Mrs. Green to leave her husband. He alleges, on information and belief, that Mrs. Green at the times mentioned in the complaint, had been totally estranged from Mr. Green because of the latter's alleged cruel and unjust treatment of her.

UNIONS FAIL TO GRAB SCHOOLS.

(Continued from First Page.)

that Mr. Matteson was a "probationary teacher," and his terms of employment did not provide for a permanent job. The report tells how Mr. Matteson was repeatedly warned by Principal Theodore Fulton of Jefferson High School that he (Matteson) must conform to the rules of the school; and also tells how Mr. Matteson was dropped as a teacher at the Polytechnic Evening High School for being repeatedly absent or tardy. This report tells of the previous hearings given to Mr. Matteson by the teachers' and schools committee, at which many witnesses on both sides were heard, and finally recommends that the previous board's ruling in the case be not reversed. The motion to reverse was carried by a vote of 14 to 10, and was seconded by Miss Stoddart.

MINORITY REPORT.

The minority report states that the members who signed it have confidence in the sincerity and veracity of Principal Fulton and his witnesses, and Mr. Matteson and his witnesses, and the members say they are convinced that "much of the friction (between Mr. Fulton and Matteson) was due to misunderstanding and to the strenuous conditions that prevailed throughout the country during the summer of 1918; and especially the work of the summer school at Jefferson High School, where intensive training of varied and difficult nature was being given to a company of 140 enlisted men, which training had to be completed within a period of eight weeks."

"We recognize that the lack of equipment in a new school and the necessarily slow process of obtaining either equipment or supplies by the ordinary methods of procedure were very serious handicaps to those entrusted with this work and accounted for a good deal of the friction and the real or apparent irregularities complained of."

ANOTHER CASE.

The board last night adopted the report of its committee of the whole in declining to reopen the case of Valentine Smith, a former high school teacher, who was also not re-employed this year.

During the discussion of Mr. Smith's case, Mr. Dooler of the board went on record as favoring giving public hearings by the committee of the whole to all teachers who are not re-employed, and who ask hearings, as did Mr. Matteson.

D. K. Edwards later presented a resolution approving the established method of giving teachers not re-employed hearings before the teachers' and schools committee. The resolution, which was referred to the law department, was adopted by a vote of 14 to 10, and was seconded by Mr. Matteson.

BY A CLOSE SHAVE.

A Vote Denies Passing Ordinance Sought by Barbers.

The new ordinance repealing those sections of the barber's regulatory ordinance requiring each barber to pass a physical examination and pay \$3 therefor was before the City Council for passage yesterday morning, but was defeated by a vote of 14 to 10, and was seconded by Mr. Matteson.

UNTIL RELATIVES ARRIVE.

Pending arrival here from Colorado of relatives of Philip D. Wilson, member of the State Board of Equalization, and well-known real estate dealer, who died in a street-car and automobile accident Sunday, the funeral arrangements are being held in abeyance.

HEAR GENERAL PERSHING SPEAK.

No collection of phonograph records is complete without the wonderful General Pershing record (which can be used as a record).

This remarkable, historical record was made by the Chief of Staff, General Pershing, at the time of the great German offensive in France, Spring, 1918. (At the time of the great German offensive.)

Suits of Fashion's Choice

—for the Women and Misses of Los Angeles

—The new styles appeal to women who appreciate the newness and beauty of them—and because of their appeal to cultivated taste their possession is a source of delight. Styles that heighten the charm of the wearer—these are the modes shown in our Fashion Salon!

Materials show a new-old attractiveness and an allurements of name that is beguiling. And the silhouettes are not slinky or "vampish," neither are they full and billowy, but have decided on a happy medium between the two.

The coats may be of any length, that is, the suit coats—and the skirts most in favor are those that are a bit shorter than last year—and yet, not like the French, over half way between the ankle and knee—but a nice, comfortable length, about 6 to 7 inches from the ground.

SUITS at 49.75

Tailored, Semi-Tailored and Fancy Models

The styles are so easy to wear that are featured in these suits at 49.75. They show a simple line that expresses distinction and beauty. Braid and buttons take away the strictly tailored effect, as does the string belt that holds the fullness at the waist line.

—The newest of fabrics—silvertone, tinselstone, Poirer twill, wool velour, chevrons and the reliable, familiar fabric of tricotine are the materials fashioning them.

—The colors are so interesting—dragon-fly, or blood, hemlock, cathedral, bat, black and shades of brown and navy.

—Others ranging in price to 250.00 (Hamburger's—Second Floor)

—We've sketched two of the many charming models.

DOVE-LIKE SPIRIT OF ZIONISTS IS BROKEN.

DELEGATES ASK INFORMATION ON ORGANIZATION'S WORK AND ARE ANSWERED.

(EXCLUSIVE DISPATCH.)

CHICAGO, Sept. 15.—The dove-like spirit which has prevailed in the twenty-second annual convention of the Zionists of America, in session here changed to one of unabated verbal mixups today.

Delegates were accorded the privilege of submitting questions as to why certain steps had not been taken by the Executive Committee during the last year. The work of this committee also takes in the past activities of the "free for all."

Some of the criticism was constructive—some tending to Palestine to give his answers. As he took up each question there were some rumblings of disapproval from some of the delegates.

Among the questions were: Have the accounts of the pogroms in Poland been given to the world with sufficient clarity?

Did the administration do its full duty regarding the Jewish legion?

Did the administration take the necessary steps to Palestine that would produce results?

Another question filed by a delegate pertained to the administration's knowledge of the editor of a certain Jewish publication. This was taken by some as sarcastic curiosity.

When Mr. De Haas had finished speaking for the administration on the questions there were some delegates who voiced their disapproval.

A representative from Illinois, who had been in the picture yesterday, was informed by the chair that his question was out of order, and un-called for.

Chairman Lipsey then called for a vote of confidence in the administration. Following several demands by dissatisfied delegates for the privilege of addressing the House the vote was taken.

PEACE MISSION PRAISED.

Dr. Stephen S. Wise, vice-president of the Zionist organization, commended President Wilson, Col. House, Secretary Lansing and their associates for demanding and obtaining justice for the Jewish people in all the peace treaties. He said it was an achievement for the American people.

The styles are so easy to wear that are featured in these suits at 49.75. They show a simple line that expresses distinction and beauty. Braid and buttons take away the strictly tailored effect, as does the string belt that holds the fullness at the waist line.

—The newest of fabrics—silvertone, tinselstone, Poirer twill, wool velour, chevrons and the reliable, familiar fabric of tricotine are the materials fashioning them.

—The colors are so interesting—dragon-fly, or blood, hemlock, cathedral, bat, black and shades of brown and navy.

—Others ranging in price to 250.00 (Hamburger's—Second Floor)

McADOO RAIL PASSES SHARPLY CRITICIZED.

(EXCLUSIVE DISPATCH.)

WASHINGTON, Sept. 15.—Railroad passes in the hands of the family of William G. McAdoo, former Director-General of Railroads, were the subject of sharp criticism by Senator Sherman of Illinois in the Senate today.

The Senator had read an article from the Manufacturers Record of Baltimore, telling of the passes issued to Mr. McAdoo and members of his family. Senator Robinson of Arkansas, Democrat, told the Senate Mr. McAdoo was acting as special counsel for the Railroad Administration in New York State without compensation and added:

"It is unfair and unworthy of either Senator or great newspaper to make such attacks on Mr. McAdoo."

Senator Sherman called attention to the fact that passes were not issued quite so generously in Illinois. "There are necessarily a number of State officials there who are engaged in duties similar to those of the late director of the railroad," said Senator Sherman. "If States there would be a considerable addition to the transportation in the United States."

"I doubt," he said, "if there has been a time in years when so many people have been traveling on Santa Fe, Great Northern, and Pullman passes at a time when no one should have passes. Congress ought to prohibit the issuance of passes at all."

WANTED TO GET INTO JAIL; POLICE AID HIM.

John Smith wanted to go to jail yesterday. He did. Smith is a motion picture actor who told the police he wanted a few ideas on how to get arrested. He wanted to use them in a picture play. He was found by Detective Sergeant Walter Blue in a Japanese rooming-house at Second and Wilmington streets while he was working on a picture.

ARMY DISCHARGE STOLEN.

Honorable army discharge papers were stolen yesterday from Lucien Guy Shoemaker, of 1044 East Twenty-second street. Shoemaker told the police that the discharge was taken from his coat in a tool box in Broadway between First and Second streets while he was working. He has offered a reward of \$10 for its return.

ON NARCOTIC LAW CHARGE.

Charged with violation of the Harrison narcotic law, Charles Morris was taken into custody yesterday by Deputy United States Marshal Joseph Bell at 522 South Main street, and arraigned before United States Commissioner Long. His bond was fixed at \$2000, for his preliminary examination, September 24.

WOULD CHECK HOTEL RUNNERS AT DEPOTS.

COUNCILMEN FAVOR A CURB: PASSENGER-GRABBING IS CALLED DISGRACE.

Sitting as the committee of the whole, the City Council yesterday afternoon heard proponents and opponents of the ordinance to prohibit solicitation of patronage for hotels, taxicabs, etc., at the railway stations, and then recommended that the ordinance be adopted.

At the hearing, conditions at the railway stations on recent occasions were described as disgraceful. It was stated by Paul Burke, appearing as attorney for the Railroad Administration, that passengers have had their clothes torn, their baggage grabbed away from them, and have been subjected to other indignities by solicitors at the depots.

S. F. McFarlane appeared for the Hotel Men's Association and supported the proposed ordinance as a means for bringing about better conditions. Warren Williams, representing the independent bus and taxi drivers, opposed the ordinance.

The outstanding provisions of the ordinance are the prohibition of soliciting for hotels, cafes, etc., by drivers at any place or upon the depot grounds or railroad property; prohibiting the standing of buses or taxicabs at depot grounds without a permit from the railroad; except for ten minutes for the purpose of unloading passengers; prohibiting the standing of vehicles for hire or for passenger traffic on Central avenue, between Sixth and Gladys avenues; on Santa Fe avenue, between First and Third streets, and on East First street between the Los Angeles River bed and Anderson street; no solicitation on passenger trains except by persons so authorized by the various railway companies.

RUSSIANS DISGUSTED WITH BOLSHIEVIK RULE.

(A FOREIGN CORRESPONDENCE.)

SOROKA (Russian Lapid) J. 9:55.—Virtually all of the prisoners who have been taken by the Allied forces, who have operated for more than a year on the Murmansk Railway front, declare that the people of the interior of Russia, from those once wealthy down to the poorest peasant, are tired and disgusted with the Bolshevik regime.

One deserter from the Bolshevik ranks told the Associated Press correspondent that the Bolshevik officers spread among the men the statement that the Allies and White Guards killed all prisoners. The Allied command is endeavoring to counteract this impression by scattering, from airplanes, propaganda leaflets promising fair treatment to those who surrender. Officers, however, consider the effect of these entirely problematical, as the backbone of the Bolshevik forces on this front are either "Red Finns" or Chinese, who, under communist officers (the communists are the few dominant Bolshevik) hold in check the unwilling Russian peasant and workmen conscripts.
